Forecast For Wales
Issued by Met Office Exeter
at 0400 on Friday 09 Apr 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Often cloudy, with outbreaks of rain moving south. Frosty tonight.

Today:
A cloudy day with a band of rain, heavy at times, moving southwards and affecting many parts of the country. Scattered showers during the afternoon, becoming wintry over the higher ground. Feeling colder than Thursday. Maximum temperature 9 deg C (48 deg F).

Tonight:
Any lingering showers easing during the evening with most parts of the country seeing clear skies. Feeling cold under clear skies with overnight harsh frost developing. Minimum temperature -3 deg C (27 deg F).

Saturday:
A largely dry day with some sunshine, though a few wintry showers are possible, mainly in the east. Showers easing overnight with further clear spells. Feeling cold in the breeze. Maximum temperature 9 deg C (48 deg F).

Outlook for Sunday to Tuesday:
Generally dry with sunny spells and scattered showers, perhaps wintry on Sunday. Changeable for Monday and Tuesday with sunny intervals and scattered showers. Feeling cold with overnight frosts throughout.
